Re: Our File 582-765 West Germany  
 PM 588

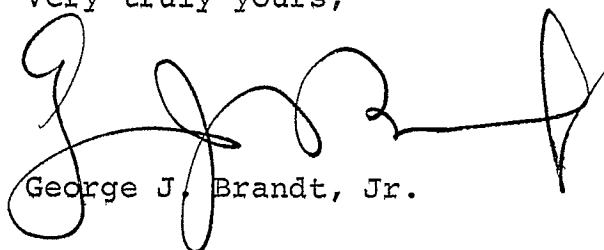

Dear Les:

We enclose herewith an official action which has been received in the above case and which requires reply not later than February 2, 1980. Accordingly, it will be desirable to have your instructions around the middle of December, if possible.

You will note from our agent's comments that in order to amend and revise the description of the specification, certain trade name designations will have to be deleted and replaced by more precise technical expressions. The Examiner also wants the definition of "lemon albedo" which could be used in the chemical sense rather than what he apparently thinks is the trade designation.

If you have any questions concerning the action, please telephone me.

Very truly yours,

George J. Brandt, Jr.
